

**Transformer Bag Kits are an easy, cost effective way to transport and store leaking transformers. Different sized kits are offered to cover all sized transformers**

## **Transformer Bag Values:**

- **Multiple layers and cord reinforcement resist punctures and tears.**
- **UV stabilization protects the material from degradation during extended exposure to sunlight**
- **Cold-crack resistance eliminates failures in extremely cold temperatures.**
- **Flexibility and light weight allow for easy handling and quick installation.**
- **Meltblown polypropylene pads are included in each kit to absorb any leaked dielectric fluid.**
